

QUALITY POLICY

SeedWorks International Pvt Ltd is committed towards impartiality, consistent operation of its activities and complying with regulatory, customer, certifications and accreditation requirements. SeedWorks International Pvt Ltd believes in providing superior seed solutions by harnessing technology and innovation to create value for all stakeholders in a sustainable manner.

The Quality Assurance Laboratory facilitates development of a technically competent team that use the standardized and documented protocols to assess quality of seeds accurately which are repeatable & reproducible in a timely manner to ensure that seeds supplied to customers meet required quality standards.

This is achieved with effective communication among its employees, maintaining impartiality, enhancing competence, involvement of all employees to fulfill their duties and responsibilities and continually improving the business, quality, regulatory compliance, and meeting requirements of ISO/IEC 17025 and ISTA rules.
